SUPERINTENDENT'S REPORT

July 15, 1922 to Feb. 1, 1923

As a superintendent must become acquainted with the needs of the schools before doing any constructive work, there can be little of vital interest to report at this time. I found the schools in good working condition to start with, therefore no changes have been made in their organization.

It appears to me that our greatest needs at present are better attendance and less tardiness. The average daily cost of education in Clarksville is approximately 43 cents per pupil each day. On an average we have from six to eight pupils absent daily, which means an economic loss to the district of about $3 per day. The habitually tardy pupil is laying the fonudation for future failure as a person who is seldom on time is never in demand. Promptness is essential to success. I trust that all parents will co-operate with the teachers in eliminating this evil from our schools. Every pupil of school age should be in school every day when he is not sick, and be there on time.

Our teachers are earnest and sincere in their work and are interested in the progress and welfare of the pupils. I appreciate this loyalty and wish to thank them for their co-operation.

It is the duty of a superintendent to study the needs of the individual pupils and see that measures are taken to promote the best interests of each child. I have made 60 official visits to Clarksville schools since the opening of the fall term and have followed the work of the different pupils until I feel that I am acquainted with them.

My purpose is to work for the interests of the children and help educate them for fair minded, efficient American citizens. In the accomplishment of this purpose, I ask your co-operation and whole hearted support.

Respectfully submitted

WILLIAM F. SKELTON.
